

## MACHINE-DATA

|                  |                |
|------------------|----------------|
| Machinetype      | : Facing Lathe |
| Make             | : RAVENSBURG   |
| Type             | : K 900 KH     |
| Year             | : 1966         |
| Control type     | :              |
| Control          | :              |
| Storage location | : Metzingen    |
| Origin           | : Germany      |
| Delivery time    | : immediately  |
| Quotation        | : ex Warehouse |
| Price            | : on request   |

## TECHNICAL DATA

|                                  |          |
|----------------------------------|----------|
| faceplate diameter               | 0 mm     |
| turning diameter over slide rest | 900 mm   |
| turning length                   | 1.000 mm |
| total power requirement          | 25 kW    |
| weight of the machine ca.        | 8 t      |

## TECHNICAL DESCRIPTION

|                                                 |                       |
|-------------------------------------------------|-----------------------|
| Height of centres                               | 550 mm                |
| Max. turning $\varnothing$                      | 1200 mm               |
| Max. turning $\varnothing$ over slides, approx. | 900 mm                |
| Max. turning length, approx.                    | 1000 mm               |
| Spindle bore, approx.                           | 90 mm                 |
| 24 spindle speeds                               | 4.3 - 587 rpm         |
| Feeds, infinitely variable                      | 1 - 170 mm/min        |
| Total load, approx.                             | 25 kW - 380 V - 50 Hz |
| Weight, approx.                                 | 8000 kg               |

### Accessories/specialities

Two separate slides, each equipped with 2-coordinate copying equipment, program controlled by plugboard, strengthened bearings and spindle, hardened and ground guideways, FORKHARDT 3-jaw chuck/face plate, separate switch cabinet and cooling equipment.

*This machine is suitable for complicated, high precision copying of heavy workpieces.*
